

Download 4 Cyclohexene 1 2 Dicarboxylic Acid

Adipic acid or hexanedioic acid is the organic compound with the formula $(\text{CH}_2)_4(\text{COOH})_2$. From an industrial perspective, it is the most important dicarboxylic acid: about 2.5 billion kilograms of this white crystalline powder are produced annually, mainly as a precursor for the production of nylon.

Below listing covers partial products of CHEMICAL LAND21. More products are or will be published. Please click below chemicals or use search tool for detail information. Our Mission. We at Metropolitan Eximchem Pvt. Ltd. are committed to offer sophisticated products to our customers through innovation and superior technology, while providing timely delivery in order to be the leader in every market that we serve.
