ABSTRACT. The development of research interests in sickle cell disease has been traced from the first recorded case, the founding of the University Hospital of the West Indies and the Jamaican Sickle Cell Unit with its influence on clinical practice in this disease worldwide. The world demand for animal-based food products is anticipated to increase by 70% by 2050. Meeting this demand in a way that has a minimal impact on the environment will require the implementation ... This is a basic glossary of equestrian terms that includes both technical terminology and jargon developed over the centuries for horses and other equidae, as well as various horse-related concepts. Sponsorship: Publication of this supplement is sponsored by the European Society of Human Genetics. All authors were asked to address any potential bias in their abstract and to declare any ...
