

Download Geotechnical Engineering Solutions

Geotechnical Solutions, Inc. (GSI) is a full-service geotechnical engineering and testing consulting firm offering services for residential, commercial, industrial, wireless, institutional, religious, and public works projects. GeoAdvanced provides high level geotechnical engineering solutions and advanced geotechnical engineering software to the civil engineering communities. Geo-Engineering Solutions is a geotechnical engineering and engineering geology consulting firm with over 30 years of experience, dedicated to finding cost effective and creative solutions to the earth and water challenges of its clients. These small companies cover mostly residential side of the market and provide limited geotechnical services based on the fact that most have only civil engineering license and are not legally allowed to test drill over 5-foot depth.
