Black classic tiny Toms with glow in the dark planet print. Canvas. Rubber sole. Velcro closure at top. Have been through the wash. Some fading on fabric. In my opinion, tiny Toms run large, so my son wore these size 10s when most of his other shoes were size 11. we still absolutely LOVE this glow-in-the-dark planets and stars kit, along with the Glow Moon and Stars that we also purchased from Amazon. We put the moon and stars on the ceiling, and the planets along the wall. Recreate our solar system, suspend it from your ceiling and then let it glow! A pack of nine colourful planets that resemble the planets of our solar system including dwarf planet Pluto, hang glow in the dark 3D planets from your ceiling or orbit them around a light bulb to act as your Sun and recreate our solar system.
