Recommended software downloads: Below are links to general freeware programs that I highly recommend for learning chemistry. Honors Chemistry is designed for students who have demonstrated strong ability in previous science courses. In this fast-paced, demanding course, the main topics--which include atomic theory, nuclear chemistry, periodicity, chemical reactions, stoichiometry, gases, solutions, reaction kinetics, equilibrium, acid-base theory, oxidation ...An Introduction to Chemistry by Mark Bishop. There are two versions of this current textbook, both containing the same information but organized differently: the "Chemistry-first" version begins with actual "chemistry" — that is, chemical equations and reactions. What's your thoughts on #5c? I don't like that they give you the rate, but don't say what substance it is the rate for. The rate of formation of the product is different than the rate of the disappearance of the reactant.
