

Download N Butyl Benzene

OWQCALREHLHBAS-UHFFFAOYSA-N | C₁₀H₁₃ | CID 5368576 - structure, chemical names, physical and chemical properties, classification, patents, literature, biological ...Packaging 25, 100, 500 mL in glass bottle
Application Butylbenzene undergoes oxidation to afford butyrophenone. It is used to prepare N-arylazoles via oxidant-free and selective C(sp²)-H amination reaction. Die Butylbenzole bilden in der Chemie eine Stoffgruppe von vier aromatischen Kohlenwasserstoffen mit allen vier Varianten der Butylgruppe als Substituenten am Benzol. Buy n-Butylbenzene - CAS Number 104-51-8 from LGC Standards. [Login](#) or [Register](#) to enable purchase of any products.
