

Download Nof Structure

LIPIDURE ® forms a membrane structure on the surface with excellent anti-thrombus results by controlling the adhesiveness of blood platelets. Organic peroxides can be decomposed thermally at relatively low temperatures. They also easily produce free radicals by reaction with reducing substances. GEOMET® is a product of NOF Metal Coatings Group (formerly DACRAL) of which ANOCHROME is the UK Licensee. Anochrome have been supplying NOF products for over 30 years. A Vision of Britain through Time includes census data and other statistics from two centuries. This national overview lets you access a statistical atlas of Britain organised by theme.
