The International Convention for the Safety of Life at Sea (SOLAS) is an international maritime treaty which sets minimum safety standards in the construction, equipment and operation of merchant ships. Steven Callahan (born 1952) is an American author, naval architect, inventor, and sailor noted for having survived for 76 days adrift on the Atlantic Ocean in a liferaft. This handy Under the Sea themed book contains lots of lovely activities, perfect for your KS1 maths lessons. The most powerful cars intended for road use tend to have a top speed that ranges between 300 and 350 kilometres per hour. Is this due to some physical limitation or just practicality of design ...
