

Download The Procedure Entry Point Kernel32 Dll

Dangerous Biggest Heavy Duty Hammer Forging Process, Fastest Hydraulic Steel Forging Machine - Duration: 16:17. LA Machines Recommended for you Because it's a Dutch Windows version it is in Dutch, but in English it would be something like "Procedure entry point EncodePointer could not be located in kernel32.dll". I've been looking for a solution on the net and I think it has something to do with SP's of Windows. Procedure entry point CancelSynchronousIo could not be located in the dynamic link library KERNEL32.dll #906
