Irving never did agree to do a stage version, but Dracula's dramatic sweeping gestures and gentlemanly mannerisms drew their living embodiment from Irving. The Dead Un-Dead was one of Stoker's original titles for Dracula, and the manuscript was entitled simply The Un-Dead up until a few weeks before This is where the majority of the myth is built. (Please see comments a few back the exact question is "where did Dracula come from then?" The blog post is a few back look under the tag of Dracula) Otherwise there is no Dracula per say, other than the Vlad Dracul, which is from my study: the clan Dracul, and his father was also a Dracul. Briefly: the original historical Dracula philosophy comes from South-Eastern Europe, Romania. It was then used as a source of inspiration to Bram Stoker's delightful book 'Dracula'. Background. Between 1879 and 1898, Stoker was a business manager for the Lyceum Theatre in London, where he supplemented his income by writing a large number of sensational novels, his most successful being the vampire tale Dracula published on 26 May 1897.
